Beginning **August 21st, 2017**, work will start to replace sections of sidewalk on **Centre Street** which were skipped during the 2016 sidewalk replacement program.

Driveway access will be maintained throughout the project, except on the dates when sidewalks are being formed and poured, Wednesday August 23rd through Friday August 25th.

During these periods, affected residents are encouraged to park on the street to ensure that they will not be adversely affected by this work.

Follow up notices will be delivered if the date of driveway closures changes.
