

Medd's Mountain Trail 0.6 km

The Medd's Mountain Trail begins beside the Millbrook millpond. The trail follows the shores of the pond and Baxter Creek before looping through the surrounding forest. Experience magnificent old-growth deciduous and coniferous trees, large decaying deadfalls, and cross over springs and streams.

Baxter Creek Trail 3 km

The Baxter Creek Trail begins beside the Millbrook millpond. It follows the pond and Baxter Creek through cedar forests, crosses a boardwalk over a wetland, and through meadows. The trail ends at Zion (4th) Line, near the MNR Provincial Fishing and Recreation Area.

Grand Trunk Pathway 1.4 km

The Grand Trunk Pathway begins at the MNR Provincial Fishing and Recreation Area parking lot, south of the Zion (4th) Line. The trail is accessed between the two fishing ponds and continues along the edge of the fishing and nature area. This trail features a view of the historic railway bridge over Baxter Creek, built circa 1865.

Cedar Trail 0.7 km

The Cedar Trail begins at the MNR Provincial Fishing and Recreation Area parking lot and continues to the south (left). This trail provides a connection to the old Grand Trunk railway line, crosses a bridge over a tributary of Baxter Creek and a boardwalk over a wetland. A right (west) turn onto the Grand Trunk Pathway then a right (north) turn on the first trail returns you past the fishing ponds to the parking lot.

Meadow Trail 0.9 km

The Meadow Trail begins on the Grand Trunk Pathway across from the end of Cedar Trail and travels through meadows and spruce and red pine. The return trip follows the same path back to the Grand Trunk Trail. Caution: You may come upon poison ivy on this trail.

Welcome to the Millbrook Valley Trails

The Millbrook Valley Trails are situated south of the village of Millbrook in Cavan Monaghan Township. The five trails follow the shores and valley of Baxter Creek, a coldwater stream that starts in the Oak Ridges Moraine and flows through Millbrook village.

Baxter Creek provides habitat for trout, herons, kingfishers, mayflies and many other species. It's popular with anglers – catch and release is preferred.

The trails wind through forests, wetlands, meadows and provide several scenic lookouts, including a railway bridge built circa 1865 for the Grand Trunk Railway.

The trails are accessed from two locations. The Medd's Mountain Trail and Baxter Creek Trail begin in the village of Millbrook next to the millpond at the end of Distillery Street. The Grand Trunk Pathway, Cedar and Meadow Trails are accessed from the Ontario Ministry of Natural Resources provincial fishing and nature area parking lot off Zion Line.

These are walking trails. Motorized vehicles, horseback riding and cycling are not permitted. The trails are not maintained during the winter. Walkers are reminded to stay on trails. Dogs on a leash are welcome. Please remember to clean up after your pet.

The Millbrook Valley Trails were developed in partnership with The Township of Cavan Monaghan, Otonabee Region Conservation Authority, Ontario Ministry of Natural Resources, Peterborough County Stewardship, Human Resources Development Canada, community groups and volunteers. The trails are managed by a Steering Committee.
